CLIMATE CHANGE JOINT RESOLUTION

2

2010 GENERAL SESSION

3

STATE OF UTAH

4

Chief Sponsor: Kerry W. Gibson

5

Senate Sponsor: Scott K. Jenkins

6

7 **LONG TITLE**8 **General Description:**

9 This joint resolution of the Legislature urges the United States Environmental
10 Protection Agency to cease its carbon dioxide reduction policies, programs, and
11 regulations until climate data and global warming science are substantiated.

12 **Highlighted Provisions:**

13 This resolution:

14 . urges the United States Environmental Protection Agency to immediately halt its
15 carbon dioxide reduction policies and programs and withdraw its "Endangerment
16 Finding" and related regulations until a full and independent investigation of **H. [the] .H**
17 climate data **H. [conspiracy] .H** and global warming science can be substantiated.

18 **Special Clauses:**

19 None

20

21 *Be it resolved by the Legislature of the state of Utah:*

22 WHEREAS, proposed cap and trade legislation before the United States Congress,
23 together with potential state actions to reduce carbon dioxide (CO2), would result in
24 significantly higher energy costs to American consumers, business, and industry;

25 WHEREAS, the United States Environmental Protection Agency's (EPA)
26 "Endangerment Finding" and proposed action to regulate CO2 under the Clean Air Act is

based

27 on **H. [~~flawed~~] questionable .H** climate data and would place significant regulatory and
 27a financial burdens on all

28 sectors of the nation's economy at a time when the nation's unemployment rate exceeds 10%;
 29 WHEREAS, global temperatures have been level and declining in some areas over the
 30 past 12 years;

31 WHEREAS, the "hockey stick" global warming assertion has been discredited and
 32 climate alarmists' carbon dioxide-related global warming hypothesis is unable to account for
 33 the current downturn in global temperatures;

34 WHEREAS, there is a statistically more direct correlation between twentieth century
 35 temperature rise and Chlorofluorocarbons (CFCs) in the atmosphere than CO₂;

36 WHEREAS, outlawed and largely phased out by 1978, in the year 2000 CFC's began to
 37 decline at approximately the same time as global temperatures began to decline;

38 WHEREAS, emails and other communications between climate researchers around the
 39 globe, referred to as "Climategate," indicate a well organized and ongoing effort to

manipulate

40 **H. [~~and incorporate "tricks" related to~~] .H** global temperature data in order to produce a
 41 global warming outcome;

global

42 WHEREAS, there has been a concerted effort by climate change alarmists to
 43 marginalize those in the scientific community who are skeptical of global warming by
 44 manipulating or pressuring peer-reviewed publications to keep contrary or competing

scientific

45 viewpoints and findings on global warming from being reviewed and published;

46 WHEREAS, the Intergovernmental Panel on Climate Change (IPCC), a blend of
 47 government officials and scientists, does no independent climate research but relies on global
 48 climate researchers;

49 WHEREAS, Earth's climate is constantly changing with recent warming potentially an
 50 indication of a return to more normal temperatures following a prolonged cooling period from
 51 1250 to 1860 called the "Little Ice Age";

52 WHEREAS, **H. [~~the climate change "gravy train," estimated at~~] .H** more than \$7

billion

53 annually in federal government grants, may have influenced the climate research focus and
 54 findings that have produced a "scientific consensus" at research institutions and universities;

55 WHEREAS, the recently completed Copenhagen climate change summit resulted in
 56 little agreement, especially among growing CO₂-emitting nations like China and India, and
 57 calls on the United States to pay billions of dollars to developing countries to reduce CO₂
 58 emissions at a time when the United States' national debt will exceed \$12 trillion;

59 WHEREAS, the United States Department of Agriculture estimates that current
 60 legislation providing agriculture offsets and carbon credits to reduce CO₂ emissions would
 61 result in tree planting on 59 million acres of crop and pasture land, damaging America's food
 62 security and rural communities;

63 WHEREAS, according to the World Health Organization, 1.6 billion people do not
 64 have adequate food and clean water; and

65 WHEREAS, global governance related to global warming and reduction of CO₂ would

66 ultimately lock billions of human beings into long-term poverty:
67 NOW, THEREFORE, BE IT RESOLVED that the Legislature of the state of Utah
68 urges the United States Environmental Protection Agency to immediately halt its carbon
69 dioxide reduction policies and programs and withdraw its "Endangerment Finding" and
related
70 regulations until a full and independent investigation of **H. [~~the~~] .H** climate data
70a **H. [~~conspiracy~~] .H** and global
71 warming science can be substantiated.
72 BE IT FURTHER RESOLVED that a copy of this resolution be sent to the United
73 States Environmental Protection Agency and to the members of Utah's congressional
74 delegation.

Legislative Review Note
